Article 3. Terms of Delivery

In the event of any reservations relating thereto, Buyer shall commence the claims procedure; otherwise the right to make claims relating thereto at a later time is revoked.

Article 4. Terms of Payment

1. Buyer undertakes to promptly effect payments for the equipment and transport costs and to accept deliveries in a timely manner. The day on which Seller's bank account is credited with the amount paid shall be deemed as the day on which the payment has been made.

2. Seller may grant trade credit to the Buyer. In order to receive it, Buyer shall forward a relevant request, as shown in Enclosure No. 1 below, to Seller, along with scanned documents which constitute attachments to said request.

3. The amount of trade credit shall total the maximum value of Buyer's debt towards Seller in respect of the orders. Seller reserves the right to change the amount of the trade credit limit at his discretion.

4. Where Buyer's orders exceed the amount of the trade credit, Seller may suspend the execution of Buyer's orders until Buyer pays his dues for the equipment purchased, Seller may request additional security or Buyer may place subsequent orders along with prepayments relating thereto.

5. Seller, in connection with the trade credit granted, shall receive a promissory note from Buyer to secure receivables relating to said credit. Seller shall have the right to enter in said promissory note the amount which corresponds to the current debt and interest, penalties, and other claims relating to non-performance or inadequate performance of the agreement by Buyer. A template of the promissory note as referred to above is included in Enclosure No. 2.

6. In case the promissory note is not submitted, there is a delay in payment for the previous order or only partial payment has been effected, Seller shall have the right to halt the execution of the order of Buyer until all outstanding dues have been paid. Seller shall also have the right to charge statutory interest, calculated on the gross value of the equipment, for each day of delay.
